Khizar Naseer Butt Ibtisaam Butt Atif Aziz Malik

Supervised by: Dr. Omer Beg

An in-depth study of unwanted energy consumption through detection of unintended personally identifiable information packets.

- Literature Review.
- Dataset Collection and Generation.

## **Iteration 2**

Visualization of our findings.

## **Iteration 4**

Building UI for our system.

## **Iteration 1**

Ensemble Method to identifty PII.

## **Iteration 3**

Model to Predict Energy of packets.
